Cutting width 160 cm (Model 1600)

Traversable blades

Cutting height adjustable from 6 to 60 cm, width of the frame adjustable from 100 to 200 cm

Customized offers on request

Trimming machines spherical cut

RAP 10

Light handy trimming machine for wheeling over the plants.

The operator moves the machine by pushing it. The cutting head and the blade movement is driven by an electric or gasoline motor directly on cutting system.

RAP 206

Trimming machine fully adjustable by hydraulic drives. Strong and resilient, versatile, accurate and handy, permits the cutting of both spherical and conical forms with high precision and a high cutting rate.

RAP 310

Trimming machine fully solution for trimming boxus, trees and conical plants on pots up to 10 liters. Up to 1200 plants for hour

RAP CAROUSEL

Up to 3000 plant pots per hour This machine works with plates for the movement of the plant pots which permits a very fast trimming cycle and guarantees a big stability of the pots and a high cutting precision.
